### INFORMATION #3

Dear Owners,

Re: Dogs in the Building

It has been brought to the attention of the Board of Directors that some homeowners who have dogs are allowing them to be off leach when walking on condominium grounds.

We have received several complaints from homeowners that on several occasions some of these dogs have frightening children and indeed some of the children have been “sprung upon” by the dogs.

Please adhere to the rules that govern the walking of your dogs in and around the building and its grounds, at all times, by having your dogs secured on a leach.

It has been noted that some of you allow your dogs to urinate in the elevators as all as in the hallways. We condemn this unsanitary and obnoxious practice and hope that whoever is responsible for their pet’s bad habit will train them in a proper manner to use the dog run provided for this purpose.

We would like to add that if you are caught allowing your dog to defecate, the rules governing pet owners will apply and you will be made to “Stoop and Scoop” after your pet.

The Board of Directors
